Information in accordance with Regulation (EU) 2016/679 (General Data Protection Regulation)

In accordance with the provisions outlined in Regulation (EU) 2016/679 (General Data Protection Regulation), you are hereby informed that the personal data you have provided, or that has been acquired through Centro Fiera S.p.A. and Top Eventi activities, shall be processed in respect of, and in compliance with, the explicit provisions in the afore-mentioned Code. The processing of this data, which may be performed by electronic, manual or printed means (e.g. publication of photographs in brochures, etc.), shall be for the following purposes:

1. The fulfillment of contractual and legal obligations connected to the interested party's participation as exhibitor or partner at trade shows organized by Centro Fiera S.p.A. and Top Eventi.
2. The organizational management of trade shows promoted by Centro Fiera S.p.A. and Top Eventi, for example, production of personal identity badges for security purposes, statistical processing of aggregate data, planning, communication to third parties that collaborate in the creation and management of events (e.g. other trade show organizers, suppliers, consultants, etc.), insertion of personal data in the Official Catalogue and Show Map, which shall be distributed nationally and internationally. In this case, some data may be also be collected through pre-registration procedures (on-line or printed) or by persons authorized by us before entering the trade show area.
3. Profiling, customer loyalty development and the sending of commercial and promotional communications regarding Centro Fiera S.p.A. and Top Eventi activities by e-mail, text message, mms, fax, telephone calls and direct sales as well as for other marketing purposes (e.g. market analysis and surveys).
4. Profiling, the sending of commercial, promotional and advertising communications concerning the products and services of Centro Fiera S.p.A. and Top Eventi third party partners (organizers, exhibitors, trade show operators or persons operating in other sectors) interested in proposing advantageous commercial offers concerning Centro Fiera S.p.A. and Top Eventi shows and exhibitions, by e-mail, text message, mms, fax or telephone calls. For these purposes, the data may also be communicated or transferred to these subjects so that they can use them directly in their commercial communications. Data processing refers to data collection, registration, organization, conservation, processing, modification, selection, extraction, comparison and re-classification into homogeneous economic categories, usage, interconnection, blockage, communication and divulgation. Processing duration shall be proportionate to the purposes pursued on a case by case basis. Providing Centro Fiera S.p.A. and Top Eventi with data is always optional. Nevertheless, if - as often occurs in relation to those who intend to request a participation proposal and/or to participate as exhibitor or partner at the trade shows - the data concerned in this data-provision option need to be processed by Centro Fiera S.p.A. and Top Eventi in order to correctly fulfil a regulatory or contractual obligation, as well as to comply to the interested party's requests (purposes foreseen in point 1), said data must be provided. In fact, any non-provision of said data would make it impossible for Centro Fiera S.p.A. and Top Eventi to supply the contractual services that you have requested and/or to fulfil the legal obligations deriving from installing relations with you. Therefore, it would be practically impossible to send you a participation proposal and allow you to take part in the trade show, enter the Exhibition Area and use our services, etc. For the purposes outlined in point 1, however, consent to data processing is never necessary (in that, art. 24 of Leg. Dec. 196/2003, exonerates Centro Fiera S.p.A. and Top Eventi from the obligation to request it). We would hereby point out that "providing

data" refers to material made available by the interested parties in favour of Centro Fiera S.p.A. and Top Eventi, therefore it is not the same as "consent" to processing said data for the purposes described in points 2, 3 and 4. The interested party that provides data (having read this communication), is presumed to have given tacit consent only to the fact that these data are to be processed for the purposes outlined in point 1. If, however, the data are processed for the reasons outlined in point 2, consent is optional, although any lack of consent shall make it impossible for Centro Fiera S.p.A. and Top Eventi to carry out the relative processing and, in some cases, to execute the services required by the interested party. Therefore, should the interested party intend to receive a participation proposal and/ or to participate in the trade show, we recommend giving explicit consent to data processing for the purposes outlined in point 2 and not just to providing data. If, however, data processing is for the purposes outlined in points 3 and 4, consent is optional and any non-provision of said data shall not lead to the non-execution of the services required by the interested party. However, it shall make it impossible for Centro Fiera S.p.A. and Top Eventi to perform the relative processing (e.g. to use an e-mail address or mobile phone number for sending promotional messages). Data collected for the purposes outlined in point 1 may be transmitted to: companies which, on behalf of Centro Fiera S.p.A., provide IT system and database management and maintenance services, companies sub-contracted through tenders/ assignments on behalf of Centro Fiera S.p.A. and Top Eventi, which perform indispensable services for participation (e.g. the installation and management of fittings and equipment, logistics, security, surveillance, first aid services, hostesses, etc.). Data processing by these subjects shall be for the same purposes and in the same modalities as those described above.
